

Taylor Cabinet Door Company

Instructions for Measuring New Cabinet Doors and Drawer Fronts to Get An Instant Quote!

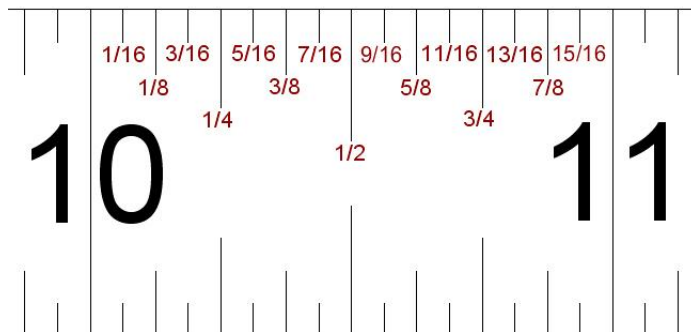

Before you start measuring; review all the instruction, if you have any questions, do what most of our customers do;

CALL US at 800-852-7087 anytime 24/7 and leave your name and number with the operator for a return phone call from one of our Product Specialists.

Materials needed for Measuring

- Measuring Worksheets - Doors, Drawers,
- Tape Measure
- Pen or Pencil
- Small Step Ladder
- Digital Camera

All your measurements will need to be in inches and fractions of an inch and to the nearest 1/16". If you are not familiar with reading a tape measure to 1/16" and you need a little help see the illustration below.

Reading the fractions on a standard tape measure: There are 15 lines between the whole numbers. Each line represents 1/16 of an inch. Looking at the example above you see that the first line past the whole number 10 is 1/16, the next is 2/16 then 3/16 then 4/16 and so forth. When reading a standard tape we simplify the fraction to their lowest form instead of saying 2/16 we say 1/8 or 4/16 we say 1/4. These are the simplest form for that distance. If you need a little help when measuring just print this page out and have it with you.

Step 1:

Measuring: Starting with upper cabinets measure all Door and Drawer openings making sure to stay in order from left to right. Then when finished start measuring with lower cabinets in the same order. For your convenience we have provided work sheets below where you can document all sizes.

Step 2:

Take pictures. Start with over all shots (See example below)

First Pictures: Overall shot of room multiple pictures if needed.

Take pictures: Starting at upper cabinet location in sequence section by section (see pictures below)

Section 1

Section 2

Section 3

Section 4

Section 5

Section 6

Section 7

Section 8

Section 9

Next take pictures: Lower cabinet location in sequence section by section (see pictures below)

Section 10

Section 11

Section 12

Section 13

Final Step: Email pictures and door/drawer front opening sizes to taylor@taylorcabinetdoor.com; If you need help on how to do this call: 1-800-852-7087
